

# Finding Your Employment Dispute Resolution Coordinators

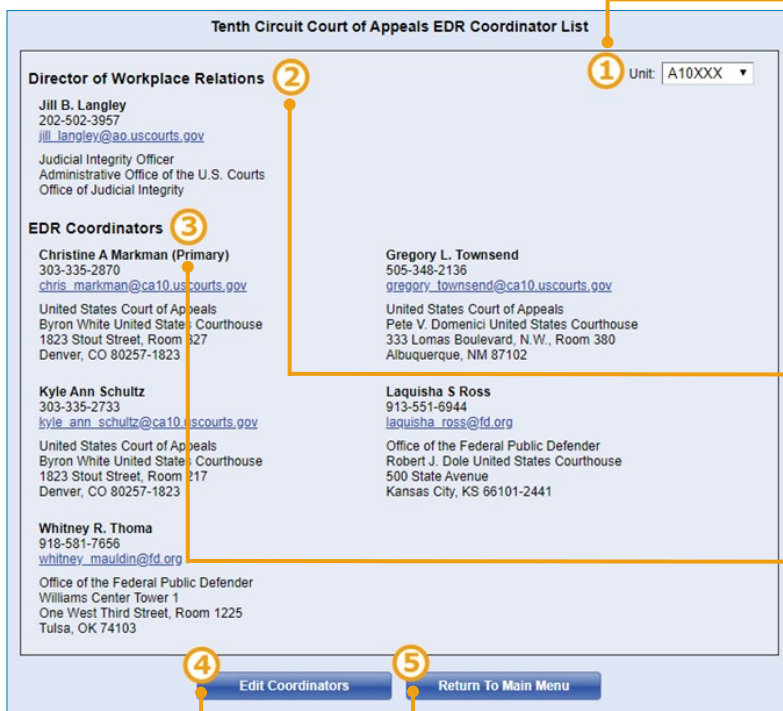

The My Employment Dispute Resolution (EDR) Coordinators application in InfoWeb provides a simple interface for all judiciary users to find an EDR Coordinator. [A direct link to this information](#) is also available on JNet and can be accessed without logging into InfoWeb.

**From the InfoWeb main menu, select Directories and click the My EDR Coordinators button.**

All users in the circuit court, district court/executive, bankruptcy, probation/pretrial services, and federal defender offices see this button.

**The EDR Coordinator List page displays.**

## Unit Select List

Anyone may view the assigned EDR Coordinators for any unit. The Unit Select List allows users to switch units. For authenticated users, the Unit Select List defaults to their unit. Unauthenticated users and users in non-EDR units must select a unit from the list. After selecting a unit, the page will refresh the EDR Coordinator information automatically.

## Director of Workplace Relations

If the circuit court has named a Director of Workplace Relations, that person's contact information will appear at the top of the page.

## EDR Coordinators

The contact information for all unit EDR Coordinators will appear in this section. The primary EDR Coordinator always appears first.

## Edit Coordinators

The **Edit Coordinators** button displays for users with rights to edit the EDR Coordinator list.

## Return to Main Menu

Clicking the **Return to Main Menu** button will return users to the InfoWeb menu. Unauthenticated users will return to the InfoWeb login page.
